

Senate Resolution 1095

By: Senator Stoner of the 6th

A RESOLUTION

1 Creating the Joint State Employee Turnover and Staffing Ratios Study Committee; and for
2 other purposes.

3 WHEREAS, the Georgia Budget Policy Institute has published a study detailing the increase
4 in state employee turnover in recent years; and

5 WHEREAS, continuity within the state work force is of vital importance to maintain
6 effective business operations; and

7 WHEREAS, experienced personnel lead and train new workers and often form the pool for
8 future leadership of the organization; and

9 WHEREAS, leading industry sources consider a turnover rate of 10 percent or more to have
10 a negative effect on the productivity and effectiveness of state business, and the State of
11 Georgia has been facing turnover rates of between 15 percent and 18.5 percent over the
12 previous ten years; and

13 WHEREAS, the turnover rate has been increasing steadily over the previous four years with
14 a FY 2005 state employee turnover rate equal to 16.6 percent; and

15 WHEREAS, as of July 1, 2004, over 43 percent of all employees had less than five years'
16 tenure, over 62 percent of all employees had less than ten years' tenure, and 47 percent of all
17 employees were over 45 years of age; and

18 WHEREAS, there are several reasons for the high state employee turnover rate including:
19 state employees are taking on an increased work load, as over the past ten years the number
20 of state employees as compared to the state population has decreased; state employee take
21 home pay is not keeping up with inflation, since over the past five years, salary increases

1 have totaled 11.4 percent while inflation has totaled 12.8 percent; the State of Georgia
2 Employees Retirement System has a ten-year vesting requirement, where, of the 100 largest
3 state retirement systems, only 22 have a vesting requirement of ten years or more while 74
4 have a vesting requirement of five years or less; and

5 WHEREAS, turnover is a critical cost driver to state government because the costs of
6 recruiting and filling vacancies, lost productivity from vacant jobs, and the costs of training
7 new employees increase operating costs and reduce output; and

8 WHEREAS, the cost of turnover has been estimated to range from 25 percent to 300 percent
9 of the annual compensation amount of each employee being replaced; and

10 WHEREAS, the turnover rate needs to be studied thoroughly and a comprehensive solution
11 to this problem needs to be presented.

12 NOW, THEREFORE, BE IT RESOLVED BY THE GENERAL ASSEMBLY OF
13 GEORGIA that there is created the Joint State Employee Turnover and Staffing Ratios Study
